Trainee
- Selected for Wipro TalentNext's Java Full Stack training program, I gained extensive knowledge and practical skills in Java Full Stack development.
- The program involved over 200 hours of comprehensive training, providing hands-on experience in various aspects of full stack development.

Hacktoberfest - 2022   **October 1 − October 31**
Contributor
- Hacktoberfest is a global event organized by DigitalOcean each October, inviting participants from around the world.
- It encourages open-source developers to contribute to repositories by submitting pull requests (PRs).

Google Cloud Arcade(Qwiklabs) - 2022   **September 2022 − March 2023**
Participator
- The Arcade provides a range of introductory and advanced games based on labs to enhance your cloud skills.
- These no-cost games cover various topics each month and require no prior experience.

Intern at CodSoft   **August 2023 − September 2023**
Front End Web Developer Intern
- Developed proficiency in front-end technologies like HTML, CSS, and JavaScript, and gained hands-on experience with popular web development frameworks and libraries.
- Designed and implemented responsive web pages to ensure a seamless user experience.

Projects

Portfolio Website ↗ | *HTML, CSS, JAVASCRIPT*
- A Personal Portfolio is a dynamic platform for showcasing your projects, education, training, and experiences.
- It serves as a comprehensive resource for presenting information about yourself.

Movie Recommendation System ↗ | *Python*
- A movie recommendation system uses Content-Based Filtering and algorithms like cosine similarity to suggest movies based on user preferences.
- It analyzes similarities between movies or users to provide tailored recommendations.

EduAssist (ChatBot) ↗ | *IBM Cloud*
- EduAssist, developed with IBM Watson Assistant and IBM Cloud, revolutionizes educational experiences by providing instant, personalized support for admissions and other processes.
- It enhances engagement and streamlines educational operations for both students and faculty.
